LINEAR SHRINK WRAPPING MACHINE

(200 BPM)

SUPERIOR & RELIABLE
TECHNOLOGY

TECHNICAL SPECIFICATIONS

Model	AT - L200
Direction of Machine	Straight
Operational Product Size	200 ml to 2000 ml
Voltage	3 Phase 415 V + N + Earthing
Air Supply	10 CFM
Power Consumption	35 KW
Capacity	16-18 Packs/Min
Machine Dimensions	12000*1300*2100 MM (L*W*H)
Applications	Beverages, Pharmaceutical, Cosmetic

STICKER LABELING MACHINE

HIGHLIGHTS

- › 7 inch touch screen operated HMI: MITSUBISHI, DELTA, etc.
- › Special Functions: Product Delay, Label Length, Label Speed.
- › Multiple Program facility for easy and fast operation.
- › Total count facility for output records.
- › A.C. Drive: MITSUBISHI, DELTA, etc.
- › Password Protection on request.
- › Easy to use, adjustment require minimum tools or change of parts.
